

Security Accessories

Keep Private Mail Under Lock and Key with Lock Boxes or Security Doors.

When security is an issue because of cash, securities or sensitive documents, your Mailmobile® can be equipped with individual lock boxes or locking bay doors with a “for your eyes only” assurance of privacy. You can even be confident your Mailmobile’s route is secure with doors that make sure only authorized personnel have access to vehicle controls. Prevents accidental or careless misuse of manual controls.

Lock Box

You can place lock boxes anywhere on your Mailmobile, to a limit of 20. The lock box can be opened from either side of the Mailmobile and is constructed of aluminum with a black finish. Lock boxes feature a mail slot that allows mail to be inserted without unlocking the doors. Four keys are included for each box. A master key, or different lock combinations for each box, may be specified at additional cost.

17" L x 11 1/2" W x 6" H

Locking Bay Doors

Two-door sets lock each side of a single bay. To lock all four bays, order four sets. Made of smoked Plexiglas, each 12" W x 33" H door features a single lock. Four keys included with each set.

Locking Control Door

This standard feature assures that only authorized personnel will have access to the power switch and manual controls of your vehicle. Includes two keys.
